

if you know which plugins are required by you, then you can go with the 'Select plugins to install' option. Select your required plugins and install them.

Creating a Jenkins user

After installing all plugins, you will see the screen for 'Create First Admin User'. Fill in the information and click on *Save* and continue.

Jenkins URL configurations

In this screen, you can configure your Jenkins URL. I am going to configure the Jenkins URL as `http://jenkins.linuxgeek.in:8080`.

This is all that you need to complete the installation of Jenkins.

Bitbucket

Bitbucket is not just a repository management system but it also gives teams one place to plan projects, collaborate on code, test and deploy.
