

Microsoft Certified: Azure Developer Associate

Microsoft Certified Azure Developer Associate certification covers various areas such as Azure App Services, containerised solutions, Azure functions, storage services, identity and access management, caching and content delivery, and so on.

Registration fees	₹ 4800 INR (India)/US\$ 165 (USA) [price is according to currency values in specific countries and regions]
Prerequisites	Experience in designing, building, testing, and maintaining applications and services on Microsoft Azure
Questions and format	40-60 questions • Multiple choice questions • Build list in sequence • Drag and drop • Hot area • Repeated answers • Short answers • Labs (I was not asked to carry out any lab work for the four certifications I studied for from my home.)
Duration	180 minutes exam time/210 minutes seat time (associate and expert job role exams); 150 minutes exam time/170 minutes seat time (associate and expert job role exams that contain labs)
Passing score	700/1000 (scaled score) The real percentage of questions that the candidate must answer correctly differs from exam to exam.
Medium of delivery	Online from your home or an authorised test centre
Open book	No
Exam content and objectives	• Develop Azure compute solutions (implement IaaS solutions, create Azure app service Web apps); https://docs.microsoft.com/en-us/learn/paths/deploy-a-website-with-azure-virtual-machines/ • Develop for Azure storage (develop solutions that use Cosmos DB storage, develop solutions that use blob storage); https://docs.microsoft.com/en-us/learn/paths/store-data-in-azure/ • Implement Azure security (implement user authentication and authorisation, implement secure cloud solutions); https://docs.microsoft.com/en-us/learn/paths/secure-your-cloud-data/ • Monitor, troubleshoot, and optimise Azure solutions (integrate caching and content delivery within solutions, instrument solutions to support monitoring and logging); https://docs.microsoft.com/en-us/learn/paths/manage-resources-in-azure/ • Connect to and consume Azure services and third-party services (develop an App Service Logic App, implement API management, develop event-based solutions, develop message-based solutions); https://docs.microsoft.com/en-us/learn/paths/connect-your-services-together/
Good reference books	Exam Ref AZ-204 Developing Solutions for Microsoft Azure; https://www.amazon.in/AZ-204-Developing-Solutions-Microsoft-Azure/dp/0136798330
Benefits	It creates awareness on what needs to be improved with respect to managing resources effectively in Microsoft Azure.
Free training	Yes
Schedule your exam	https://docs.microsoft.com/en-us/learn/certifications/azure-developer/
