

Panasonic's new smartphone can access 21 Indian regional languages

Panasonic India has launched a feature-packed smartphone called the T33 that empowers its users to communicate in their own language. With access to 21 Indian regional languages, the new smartphone comes with a 10.16cm (4 inch) WVGA display screen. It features an exclusive layered design and leatherette back cover giving it a stylish look and a palm-fit grip.

Apart from being affordable, the dual SIM smartphone comes with 4GB internal memory. The T33 is powered by a 1.2GHz quad-core processor and runs on Android 4.4.2 Kitkat. It sports a 3MP camera with an LED flash and is equipped with a battery capacity of 1500mAh.

The Panasonic T33 is available in white and blue, through retail and online stores.

Infocus releases its all-in-one smartphone

Infocus has recently released what it claims is its best looking smartphone, the M810. The phone encases the 13.9cm (5.5 inch) full HD screen in a handcrafted matte metal frame carved with a shiny glass cover.

The smartphone runs on Android Lollipop 5.0 OS, and is powered by the Qualcomm Snapdragon 801 processor with exclusive Inlife UI. The M810 comes with 2GB RAM, 16GB inbuilt memory and offers storage expandability via microSD card slot up to 64GB.

The stylish smartphone has a 13 megapixel autofocus rear camera with Sony Exmor R sensor f/2.2 lens, and true-tone LED flash and 5 megapixel front facing camera. Connectivity options include 4G LTE, Wi-Fi 802.11 b/g/n/ac, FM radio and Bluetooth 4.0.

The smartphone is powered by a 2600mAh battery and has features like light sensor, proximity sensor, gyroscope, accelerometer and magnetometer.

The Infocus M810 is available via amazon.in in gold colour.

A smart Wi-Fi router from Netgear

Netgear has launched what it claims is its smartest Wi-Fi router—the R6220. It comes with external antennas, is compatible with the latest Wi-Fi devices and is also backward compatible with 802.11 a/b/g and n devices.

Price: ₹ 9,500

The router avoids interference and offers speeds up to 300Mbps at 2.4GHz and 867Mbps at 5GHz. Ensuring top Wi-Fi speeds and reliable connections, the router also supports Gigabit Ethernet ports and a USB port to connect local devices.

Additional features include:

Netgear Genie: A free app for PCs, Android or any other OS, to enable you to control, monitor and repair a home network.

DLNA media player: Provides the ability to find photos, videos or music files anywhere on a network and play via DLNA player.

Guest network access: Provides Net access to guests, but prevents them from accessing your personal computer, printers and storage devices.

Automatic Wi-Fi security: Highest level of Wi-Fi security with WPA/WPA2.

Netgear R6220 is ideal for large homes as it offers a high speed and good range. It is available with authorised distributors across India.
