iBall's 'Nightingale K9' speakers are designed for modern homes

iBall has introduced the latest product in its 2.1 multimedia speaker range, called the Nightingale K9. The new product comes with a completely wood-encased woofer and two satellite speakers, along with a host of other features. All its functions are controlled remotely.

The Nightingale K9 comes with 48-watt peak power output. The speakers are compatible with USB, SD and AUX input devices. Its satellite speakers, each measuring 10 (W) x 15 (H) x 9 (D) cm, ensure a clear mid- and high-range audio response and, more importantly, fit comfortably into modern urban homes.

The Nightingale K9 is equipped with a 10.2 cm (4 inch) driver in the sub-woofer and a 7.6 cm (3 inch) driver in the satellite speakers, enabling a high quality bass experience for games, movies as well as music. The K9 comes with a remote control that has direct track selection, volume and many other controls. Radio addicts will love this compact device as they tune in to their favourite FM channels.

Spice introduces Android One with Hindi in its Dream Uno H smartphone!

Spice and Google have introduced India's first Android One Hindi smartphone – the Spice Dream Uno H Android One. This is aimed at the large Hindi-speaking population of India. The Spice Dream Uno H features a Hindi version of the recently launched Android One from Google, a complete Hindi keyboard, along with Hindi versions of popular Google products such as Android OS, Chrome, Search, YouTube and Google Maps, amongst other popular applications.

This dual SIM 3G smart device is powered with a 1.3GHz quad core processor, runs on the Android 4.4.4 Kitkat OS and will soon get the latest Android updates such as Android Lollipop. The phone has an 11.43-cm IPS display and features an expandable storage capacity of 32GB. The 5MP auto focus rear camera clicks sharp images while the 2MP front camera will appeal to selfie lovers.

The device is equipped with a 1700mAh Li-polymer battery offering a standby time of up to 160 hours, and a talk time of up to 1020 minutes (2G) and 620 minutes (3G).

Micromax unveils Yu Yureka, its first Cyanogen OS-based smartphone

Micromax has launched the Yu Yureka smartphone, powered by the Cyanogen OS. The phone is available online from Amazon. This is the company's first Cyanogen OS-based smartphone.

The Yu Yureka (AO5510) smartphone runs on a custom-build of Cyanogen OS – the Cyanogen OS 11. It is a dual-SIM device and sports a 13.97 cm (5.5 inch) HD (720 x 1280 pixels) IPS display with a pixel density of 267, protected by the Gorilla Glass 3. It is powered by a 64-bit 1.5GHz octa-core Snapdragon 615 SoC (MSM8939), coupled with an Adreno 405 GPU and 2GB of RAM. The smartphone houses a 13MP Sony Exmor CMOS sensor rear auto-focus camera along with a 5MP front facing camera. It has 16GB of internal storage space, which can be further expanded up to 32GB via microSD card. It also packs in a 2500mAh Li-Po battery. On the connectivity front, it supports Bluetooth 4.0, micro-USB, Wi-Fi 802.11 b/g/n, GPS, and a 3.5 mm audio jack option.
