Canon's new network business inkjet printers are for SOHO users

Canon India has introduced the Maxify, a range of inkjet printers for SOHO customers. These printers are designed to provide high-speed printing at a low cost per print, cloud printing capabilities and wireless connectivity to smart devices. The new printers launched are the Maxify MB5370 and MB5070 multi-functional printers, and the single-function Maxify iB4070.

Keeping in mind the needs of SOHO users, the Maxify range caters to high volume printing requirements with a duty cycle of up to 30,000 prints per month. Maxify printers are compatible with the optional XL cartridges, which offer a yield of approximately 2500 pages of black and 1500 pages of colour prints.

The 'scan to network' feature in this range allows scanned images to be sent to storage in a shared network folder, so that other users in the office can look up the information easily. 'Scan to email' allows scanned images to be sent to any email address, so that professionals on the move always have access to the most important documents.

Prices for the Maxify series:

- MAXIFY MB5370: ₹ 23,995
- MAXIFY MB5070: ₹ 17,995
- MAXIFY iB4070: ₹ 10,995

Xiaomi Mi 4 arrives in India

Xiaomi has launched the Mi 4 in India at a price of ₹ 19,999. It is an improved version of its predecessor, Mi 3, in almost every possible way. Just 8.9mm thin, the latest Xiaomi phone comes with a metal body, fitted with replaceable panels at the back. It has a 12.7cm (5 inch) full HD IPS display screen. Xiaomi has a 13MP rear camera that can record 4K videos along with a quad-core Qualcomm Snapdragon 801 processor.

The Xiaomi Mi 4 comes with 3GB of RAM and 16GB of storage space, and is juiced up with a 3,080mAh battery. The company has also introduced what it claims is quick-charging technology that can charge the device up to 60 per cent in just 30 minutes. The Mi 4 has an 8MP front camera and comes with connectivity features like 3G, dual band Wi-Fi, Bluetooth 4.0, USB host and radio.

Xiaomi is selling the Mi 4 smartphone through Flipkart.

Price: ₹ 19,999

Toshiba powers its new LED TVs with Android to make them smart

Toshiba India has launched Android TVs in India. The Japanese electronics company has launched two new ranges of smart LED TVs, powered by the Android 4.4 operating system. The L9450 series offers multiple apps, games and videos through its Android platform and has an Ultra HD 4K screen, while the L5400 series has full HD displays.

Three screen sizes will be available in L9450 series, including 127cm (50 inch), 165cm (65 inch) and 213cm (84 inch).

Four screen sizes are offered in the Android-powered L5400 Series—81cm (32 inch), 102cm (40 inch), 119cm (47 inch) and 142cm (56 inch).

A feature called screen mirroring will let you display your smartphone's contents on the bigger screen of the TV, without any router or cable connection. This new range allows a viewer to plug-and-play a wireless keypad and mouse too.

Price: Starting from ₹ 38,990
