

What happens when you combine open source software with closed source software?

Innovation.

But, combining open source & closed source code raises potential legal and business risk; it can happen unknowingly with parallel development forks, multiple licenses and rapid development cycles. **How can your organisation quickly identify & validate thousands of components to ensure compliance with your licensing obligations?**

Black Duck can help you gain visibility into FOSS and other software assets, automate scanning and validation, and create a catalogue of supplier components. To learn more, please visit www.blackducksoftware.com/learnmore/

Join Lyra & Black Duck in a city near you!

Lyra & Black Duck are hitting the road to spread the word about open source management. Educate yourself for free in one of the following cities:

Bangalore - April 25, 2011

Pune - April 27, 2011

New Delhi - April 29, 2011
