Android Application Development Training

This complete hands-on course encourages students to learn by building increasingly more sophisticated and meaningful mobile applications for Android phones. The course explains what Android is, the setup of the Android Eclipse-based development tools, the Android SDK, all essential features, as well as the advanced capabilities and APIs such as background services, accelerometers, graphics, and GPS.

Google Android Application Development	
• 12th to 16th	April '11
• 18th to 22nd	April '11
	Bangalore

Training On Storage-"StorAdmin"

An Introductory Training Program in Data Storage

StorAdmin is a 2-day full time program designed to provide a comprehensive introduction to Data Storage. The program combines class-room instruction with hands-on lab with storage hardware and software.

StorAdmin is an ideal platform for Network & System Administrators and hardware, networking, OS, server & virtualization engineers to acquire a solid foundation in data storage technology.

The program will also facilitate System Integrators and FM service providers currently offering solutions in computing infrastructure to graduate to data storage administration, management and solutions.

StorAdmin is brought to you by GT Enterprises, a pioneer in IT Training and The Datalifecycle Company, an independent integrator of data storage solutions.
