

Oracle calls on Apache to reconsider its position on Java

Don Deutsch, vice president of standards and architecture, Oracle, has asked Apache to "...reconsider its position and work together with Oracle and the community at large to collectively move Java forward." The Apache Software Foundation had recently taken its being ratified as a member of the JCP Executive Committee as an opportunity to criticise Oracle's licensing decisions regarding the Test Compatibility Kits (TCKs) for the Java Standard Edition.

Symbian to become a licensing operation only

The board of the Symbian Foundation has decided to transition the role of the non-profit organisation. As part of the new strategy, the Foundation will become a legal entity responsible for licensing software and other intellectual property, such as the Symbian trademark. Nokia has committed to make the future development of the Symbian platform available to the ecosystem via an alternative direct and open model.

The first phase of the foundation's transition will involve a reduction in operations and staff numbers. By April 2011, the Symbian Foundation will be governed by a group of non-executive directors tasked with overseeing the organisation's licensing function.

Canonical welcomes new partners

Canonical, the commercial sponsor of Ubuntu, recently signed several significant partnerships following the release (last month) of Ubuntu 10.10. Boxed Ice, Opsview, Riptano, Unoware, Vladster, Wavemaker and Zend all joined up as Canonical Software Partners, with their applications delivering solutions for business and personal use, and being supported by commercial companies providing the highest level of service. Canonical Software Partners work closely with the development teams who deliver Ubuntu, and thus ensure that installation and operations are of the highest quality.

Samsung Galaxy Tab is a large phone: Nvidia CEO

A flood of Android tablets are on the way, but they need to be 'truly remarkable' in order to compete effectively against Apple's iPad, according to Nvidia chief Jen-Hsun Huang. "You can't just do another product," he said. "Look at the Samsung Galaxy Tab. It's a tablet that uses a phone operating system on a large display. A tablet is not a large phone."

He also noted that Nvidia's Tegra processor is likely to appear in a number of Android tablets. "Our tablet and phone business is going to ramp. And it's going to ramp hard," Huang added.

Linux Foundation to merge with CE Linux Forum

The Linux Foundation and the Consumer Electronics Linux Forum (CELF) will merge, resulting in the CE Linux Forum becoming a technical work-group at the Linux Foundation. Organised to promote the use of Linux in

RHCVA

(Red Hat Certified Virtualization Administrator)

@ The future is of Virtualization

IPSR

Get trained by faculty team headed by

RHCA Certified Professionals

Produced 33 Special OFFER for RHCSS RHCVA

RHCSS Highest in Asia Pacific

RHCA

RHCDS

RHCSS

RHCVA

RHCE

Modules Starting Every Week

Awards

- ▶ Winner of Red Hat Asia Pacific International Award 2008, 2009 & 2010
- ▶ Winner of Red Hat GLS National Awards 2004, 05, 06, 07 & 08

Faculty & Infrastructure

- ▶ 15 member faculty crew led by RHCE, RHCVA, RHCSS, RHCDS, RHCA certified professionals
- ▶ Global standard infrastructure offered at our International Centre located in Kochi

Achievements

- ▶ Produced 3000+ RHCEs, 33 RHCSSs & 3 RHCAs

IPSR, The Best in Red Hat Certifications
