

New Business Tip #1

Not every one of your prospective customers may appreciate being called 'dear sir/madame'.

Why start a business relationship by being rude? Whether its 1-person or 1-million people, it always pays to make it personal. Choose an email marketing system that has been designed for you - to treat your customer as a unique individual, as a person. To know more about MailDirect, visit www.maildirect.in or write to marketing@qlc.in and ask for a demo.
