An agenda-rich forum:

Spread across 2 full days, the event is divided into plenary sessions and a dedicated series of education seminars that form part of the main agenda. Plenary sessions are designed to provide delegates with practical, strategic and tactical knowledge, complemented by education seminars which offer hands-on technical know-how. This format ensures that information security stakeholders are provided with all the relevant information they need on how to manage threats and overcome challenges and allow attendees to tailor their conference programme and take home the best solutions for their business.

Key Themes:

Integrating risk management frameworks to enhance security and compliance capability
Increasing productivity by deploying proactive, strategic, and cost-effective security processes
Reducing risk of data loss posed by business processes, hardware, and employee focused threats
Evaluating and harmonising security technologies to tackle new challenges
Protecting against key vectors of attack such as web and mobile application vulnerabilities
Monitoring business processes to identify where critical risks exist
Introducing greater information security efficiency at enterprise level
Meeting regulatory compliance and corporate governance requirements effectively

Brief about the organizers:

This conference is a joint venture between our Company Dickenson Media Pvt Ltd. & AKJ Associates from United Kingdom. NCJ organizes sector focused conferences for the Corporate Industry & Private Equity marketplace. Each of its products are designed to meet the needs of senior decision makers from the top corporate in India as well as the Private Equity & Venture Capital companies along with the lenders, bankers, lawyers and other advisors, who support them. AKJ Associates focus exclusively on global risk and security matters and have 8 years experience in developing and running international conferences and forums specifically in this niche. Over the last 7 years the e-Crime Congress has established itself as one of Europe's most influential cyber crime forums, welcoming over 500 senior level delegates from over 40 countries.
