Let's contribute our bit to conserve environment by **archiving emails** in an **electronic** format rather than printing & storing in files thus saving huge amount of paper.

Why Archive Emails?

There are four predominant reasons for an organization to archive its email. These are: **Compliance, Litigation support, Storage management & Knowledge management.**

Emergic MailArray (EMA) is an **Email Archiving & Compliance Solution** which helps you to **Retain & Retrieve** your mission critical emails for several years & be compliant with laws like **SOX, HIPPA, SEBI, RBI guidelines, IT Act 2000** & others.

Features & Benefits

- **Unified Archiving Platform:** Archives emails from Exchange, Lotus & Linux based mail servers.
- **Automatic & Real-Time:** Once set, the system keeps on archiving automatically without any manual intervention.
- **Performance Optimizer:** Load on Live Mail Server is reduced by moving older mails to low-cost storage.
- **Storage Reduction:** Compression & Single Instance Storage (SIS) of mails & attachment across users.
- **Secured Storage:** Email are encrypted & stored in read-only & tamper proof format.
- **Advanced Search & Retrieval:** Search on multiple parameters using AND/OR combination with options to view, print, download & forward selected results.
- **Centralised Repository:** Eliminates the need for personal archives & protects against accidental / intentional deletion.
