

cloud, without replacing existing technology investments. For instance, PlateSpin Migrate has added two features: Live Transfer and Live Server Sync for Linux platforms, allowing workloads to be migrated without having to take down the server, thus minimising downtime.

The PlateSpin products allow recovery of whole server workloads, including data, applications and operating systems, from a single point of control. Customers can leverage existing virtual infrastructure to create one disaster recovery plan for all server workloads, whether physical or virtual, running both Windows and Linux.

PlateSpin Forge 3 protects both physical and virtual servers, using embedded virtualisation, and comes with new features such as increased memory and storage capacity, new smart replication technology, the Forge API, and Windows cluster protection for business critical workloads.

Novell acquired PlateSpin, an early virtualisation management pioneer, in early 2008, for \$205 million. Back then, PlateSpin

had three principal offerings -- PlateSpin Forge (a disaster-recovery hardware appliance), PowerConvert (a workload optimisation tool) and PowerRecon (a data centre utilisation intelligence application). After acquisition, Novell merged these products into the Novell ZENworks management platform, making PlateSpin a more heterogeneous product.

Novell sees India as a promising market for IWM products and is striving hard to become a leader in this rapidly emerging market. The new PlateSpin products should help Novell achieve a leading position in the IWM market.

Novell

Upcoming FOSS Events/Workshops/Meetings

Name, Date and Venue	Contact details
Workshop on Free and Open Source Software July 3, 2010 (9.30 am to 4 pm) Seminar Hall, SF wing, Ramakrishna Mission Vidyalaya, Coimbatore, Tamil Nadu.	Website : http://bit.ly/wfoss
Embedded Systems Conference (ESC) India July 21-23, 2010 NIMHANS Convention Centre, Bengaluru, Karnataka.	Syed Mohd. Javed Phone : +91 22 6769 2420 Email : esc@ubmindia.com Website : http://bit.ly/esc-india
GO-OS 2010 August 14-15, 2010, Raja Muthiah Mandram, Madurai, Tamil Nadu.	Website : http://bit.ly/OSCOIndia
OSI Days 2010 September 19-21, 2010 Chennai Trade Centre, Chennai, Tamil Nadu	Dhiraj Khare Phone : +91 9811206582 E-mail : dhiraj@osidays.com Website : http://bit.ly/OSIdays
PyCon India 2010 September 25-26, 2010 M S Ramaiah Institute of Technology, Bengaluru, Karnataka.	Website : http://bit.ly/PyCon-India
