

FOSS project-wise listings

iii) Premium listing options that your organisation may pay for, and avail.

What are the levels of verification we can opt for?

As of now, we have initiated the first level, wherein we call and verify your primary contact details. We will then provide more levels, based on the feedback we get from CIOs and IT heads.

Q Are there any charges for getting the 'Contact Details Verified'?

For the first 200 firms, it's free. We had crossed 100 while in Stealth mode itself. So, there're not too many slots left! Call Sindhia or Aditya as soon as possible at 0091-11-288010601/02/03 or e-mail us at fvtpteam@efvindia.com.

Q What are these 'Premium Listing' options going to be?

These are a popular feature in B2B websites and they imply that the firm with a 'premium listing' has been assigned a higher priority in the list of firms in any particular category. Thus, if you want your firm to be listed higher in a category (e.g., Business Intelligence tools), then you may opt for a 'Gold Level' listing or a 'Platinum Level' listing.

In a nutshell, besides the FYP score that you can earn (for free) by providing more information about your firm, you can also improve your position on the listings by paying for certain listing options.

Q How do I get to know the score associated with all the information that I share?

We will be shortly sharing the score card indicating the relationship between the information shared, and the score associated with it.

Q How will I know what my FYP score and that of my competitor is?

Soon, when you log in, you will be able to see your firm's FYP score under the 'MyAccount' section. The FYP score of your competitor—well, we've not thought of that one yet.

Registrant's information page

Q What if I have a problem in accessing my account or logging into it?

Call Sindhia or Aditya at 0091-11-26810601/02/03 or e-mail us at fypteam@efyindia.com.

Q What is the turnaround time to receive a reply?

Q Ideally, we would like to reply within 24 hours, but we hate to over-commit and under-deliver. Thus, our standard turnaround time is 2-3 working days for all doubts or queries. If the query is complicated, we may not take action within the prescribed period, but would definitely update you about our plan of action. However, if you don't hear from us within 2-3 working days, send an e-mail to quality@efyindia.com. Our quality team is focused towards customer service, and will ensure that you get a reply as soon as possible.

Q Can multiple users from the same organisation get multiple logins to access and modify their information?

As of now—no. And, perhaps in the long term too, we will authorise only one person to update and manage the information of a firm. If different information is to be provided by different people, then either the login can be shared amongst those users (at their own risk) or the entire information can be consolidated by a single person (which is the ideal situation).

Q We have a large organisation, and each division functions like a separate business unit; thus we need to manage/update our information independently. How do we do that?

In such cases, we advise that you register each organisation as a separate business unit and mention the name of the business unit as part of the organisation's name. For example, we (the EYF Group) could register the FYP business unit as 'EYF Group (Fossyellowpages.com)' and the LFY business unit as 'EYF Group (LINUX For You)'. Note, our organisation's name appears in both cases, but for a customer, the two different business units are evident. However, this should only be done by big organisations, which either have a turnover exceeding US\$ 25 million or have more than 500 employees on their pay-roll. **END**
