

24th - 25th June, 2010, Taj Lands End, Mumbai, India

UNIFYING IT TO MEET THE BUSINESS CHALLENGES OF TOMORROW

At 3rd Banking, Finance & Technology Forum, senior-level bank executives will gather to network, learn and share the best practices and strategies that are helping them lead their organizations out of the downturn and into the future of banking. Participants have access to the innovative and successful leaders who are redefining the ways banks interact with their customers, finding more transparent and effective ways to manage risk, and achieving much more efficient, productive and profitable operational and transactional processes.

Discussion Themes :

- The DNA for Technology as an Innovation Enabler in Business Today
- Partnering to build the financial institution of the future
- Beyond SOA; Reaping the benefits of the enterprise services architecture
- After the Storm - A New Era for Security and Risk Management
- Technology as a Facilitator
- Convergence of Banking and Technology
- Using Analytics to Create a Competitive Advantage
- Reinventing Customer Experience
- Technology Megatrends & how the Insurance Industry Should Embrace Them
