LFY DVD: BackTrack 4, Linux Mint 8 & OpenOffice.org 3.2

Claimed to be the most acclaimed Linux security distro to date, BackTrack is a one-stop-shop for penetration testing. Its users range from skilled penetration testers in information security field, government entities and IT.

Mint's goal is to provide an out-of-the-box desktop experience by including browser plug-ins, media codecs, Java and other components. Find the ISO images for both GNOME and KDE4 versions inside.

OpenOffice.org 3.2 introduces faster start-up times, improved compatibility with PDF and proprietary file formats, besides improvements to all the components.
