

A new era, a new ESC

New Tracks. New Courses. New Focus.

Embedded Systems Conference (ESC) brings together system architects, design engineers, engineering management, suppliers, analysts and media from across the globe. With cutting edge product demonstrations, visionary keynotes and essential training classes, ESC is the ideal conference for the embedded design community to learn, collaborate and celebrate innovations.

International Speakers

Michael Barr

Clive Maxfield

Robert Oshana

Gary Strigham

Bob Zeidman

Whether you're a newbie embedded systems designer or a seasoned professional, be sure to attend ESC India.
