Ubuntu One is well stocked with DRM-free music. You can buy from the Ubuntu One music store, and it's instantly backed up to your Ubuntu One space for later download to your desktop—or you can stream directly to your smartphone, using an iPhone or Android app. The basic Ubuntu One plan provides 2 GB of free

space for syncing and backing up your pictures, bookmarks, contacts and music. I would recommend this to everyone.

Setting up Ubuntu One is a piece of cake—you can create
