FOSS Yellow Pages.com **BETA**
Yellow Pages For Open Source

At FOSSYellowpages.com, you can find solutions to all your IT infrastructure-and business automation-related requirements from a vast plethora of free and open source software (FOSS) solutions that the portal showcases.

The portal is a one-stop information hub that lists the most popular FOSS solutions, and the top FOSS vendors who provide solutions as well as service support to businesses-at costs far lower than the commercially available software solutions.
