

Desktop Virtualisation in **EduBOSS** using **NComputing X550**

The BOSS (Bharat Operating System Solutions) GNU/Linux distribution developed by C-DAC (the Centre for Development of Advanced Computing) is derived from Debian, to enhance the use of FOSS throughout India. C-DAC recently released the BOSS 3.1 (tejas) desktop version, and EduBOSS 1.0 school desktop version and BOSS Advanced Server version 1.0.

EduBOSS comes with a set of features that are relevant to the primary and secondary school environment. It provides a complete usable OS, with GUIs and console applications for routine tasks, and additional utilities that are useful for teaching/learning in schools.

The EduBOSS DVD pack consists of EduBOSS Live disc, which allows you to try EduBOSS without installing the Install disc on system, EduBOSS Install disc which installs EduBOSS desktop in system, and the Utility disc which has some extra packages like OpenOffice fonts, Apache Web server, scripting languages, etc.
