

...with closed source software?

Check out some helpful resources!

Android White Paper – here we describe the opportunity and challenge of developing for Android, look at its history, review licensing and IP issue and present a solution for managing it's abundance and complexity. Check it out at: www.blackducksoftware.com/android

Managing the Operational and Security Exposure of Free and Open Source Software – in this paper, we address what development managers must take into account when creating software in a multi-source development environment, how they are often underestimated in the use of FOSS, and how they can be addressed with best practices and tools. Read about it at: www.blackducksoftware.com/managesoc
