Amkette unveils EvoTV to make TV viewing more interactive

In June 2012, Amkette launched EvoTV, a first-of-its-kind interactive, customisable, Android-based device with an intelligent Touch Remote to redefine the television experience.

EvoTV features an endless number of customisable views that allow you to access what you want to see, with a single click; a remote that houses a microphone so that all conversations over VoIP (like Skype) are free of ambient noise; an accelerometer in the remote that takes game-playing to a new level altogether; the integration of the Home Network using DLNA (for media) and content from other media storage devices; and Evo Discover, a dynamic content discovery software that allows consumers to search and retain video content from sources such as YouTube.

The very low power consuming EvoTV is powered by the twin processors, ARM Cortex A9 and ARM Mali 400 Graphics Processor. It has 4 GB of inbuilt memory, up to 1080p full HD video and built-in Wi-Fi and Ethernet ports. The EvoTV is available in Delhi (NCR), Mumbai, Bengaluru and Kolkata. It is also expected to be available in 40 cities by the end of August 2012.

Price: ₹ 23,250; **Tata Docomo** has a very attractive offer of a 3 GB data download that comes free over a three-month period with the Galaxy Tab 2 310.

Samsung launches Samsung Galaxy Tab 2 310

In May 2012, Samsung Electronics launched the Samsung Galaxy Tab 2 310, expanding the offerings from this popular range. Light and portable, the Galaxy Tab 2 310 is perfect for those on the go.

The 17.8 cm device is available with 3G and Wi-Fi, and is Samsung's first Android 4.0-powered tablet featuring new and improved features from Google's mobile OS. This includes Google Play, a new hub for more than 450,000 applications, as well as improved Web browsing, faster response time and a more intuitive UI with upgraded swipe control applications.

Samsung's 'Readers Hub' gives users access to more than two million e-books, 3500 magazines in 25 languages, and more than 2,000 newspapers in 51 languages. The 'Game Hub' instantly connects users to the latest game titles, and 'My Movies' gives consumers access to more than 500 full movies and over 2500 music videos. The Galaxy Tab 2 310 is powered by a 1 GHz dual core processor, and comes with a 4000 mAh battery and 16 GB storage that is expandable up to 32 GB for large-sized multimedia and digital content.
