

A List Of Leading Web Hosting Solutions Providers

BigRock | Mumbai, India

BigRock offers a wide variety of Web hosting solutions, catering to individuals, SMBs and enterprises. These include Linux hosting, Windows hosting, WordPress hosting, CMS hosting, e-commerce hosting, and reseller hosting (Linux). Offerings in the Windows reseller hosting, Virtual Private Servers (VPS) and dedicated server space are expected to roll out soon.

Major Linux-based offerings: The company's shared hosting product is bifurcated into single and multi-domain hosting plans to enable customers to pick packages as per their needs. BigRock bundles the cPanel control panel with its Linux hosting packages that support the entire LAMP (Linux, Apache, MySQL and PHP) stack.

With respect to Linux hosting solutions, the company has a 1-click install WordPress hosting product, which is growing increasingly popular. Additionally, BigRock offers Joomla and Drupal hosting solutions to enable its customers to manage content efficiently. With respect to hosting e-commerce sites, BigRock supports ZenCart, CubeCart and other popular shopping cart integration tools on its Linux hosting platforms. The firm's Linux reseller hosting solutions allow customers to set up their own hosting business.

Open source tools used: BigRock offers data centre management tools (RackMonkey and Puppet), server monitoring tools (Nagios and Ganglia) and reporting tools (Graphite).

Leading clients: The company is primarily focused on SMEs, Web designers, students and individuals looking for reliable and cost-effective hosting solutions.

USP: It offers 'affordable Web hosting' for personal websites, 'business hosting' for small business websites, and 'professional hosting' for large enterprises. It claims to own the best-in-class hardware with Dual Quad Core Xeon processors backed by 24 GB of RAM and dedicated bandwidth pipes. BigRock recruits the best technical talent, along with providing a 24x7 support infrastructure. Overall, its hosting plans are backed by the following promises: 99.9 per cent uptime, dedicated 24/7 technical support, a 30-day money back guarantee, and Rs 8000 worth of Google Adwords credit, free.
