GenX Solutions Point | Rajkot

GenX Solutions Point is based in Rajkot in Gujarat, and provides hardware and networking solutions. The company offers solutions mostly in hardware virtualisation and also on network storage virtualisation.

Clients: Kamania Computers, Career Launcher, Krupa Structural Consultants, etc.

Support model for clients: Mostly remote or telephonic support, depending upon the requirements.

USP: Currently, very few people in Rajkot know about virtualisation and how it can be used to reduce costs. So the firm plays a key role in educating clients about its potential.
