ESDS Software Solution Pvt Ltd | Nashik, India

The company's cloud services solution, the eNight Cloud Platform, offers IaaS on a pay-per-consume model on the public and private cloud, on a fixed pricing model. It also offers disaster recovery, desktop-as-a-service and ERP hosting on a pay-per-user model.

Major open source-based offerings: eNight Cloud is entirely based on the Xen kernel, which is open source. The company has customised the kernel to provide instant auto scaling of the CPU and RAM, which results in 70 per cent savings on the capex and opex required for hosting websites or applications.

Leading clients: Podar International, Kafilla Tours and Travels, Ambuja Cements Limited, MPSC.gov.in, the A2Z group, Gujarat Informatics Ltd, WebTel Technologies, Access Automation Pvt Ltd, Insignia Limited, IndoUS Capital Advisors Pvt Ltd, eXperio Communication Pvt Ltd, Tara Nutricare, BanyanTree Consulting, DCP Mumbai Police, Mahila Nagri Sahkari Patasansha, Prism Informatics Ltd, Ignify Inc, Virmati, Vayam Technologies Ltd, and many more.

USP: Intelligent auto-scaling, pay-per-consume, per-minute billing, prepaid model and instant provisioning (less than 3 minutes) of virtual machines with all popular Linux distros. Migrating a Linux dedicated server on eNight Cloud has resulted in saving a minimum of 80 per cent of power.

Special mention: The company has received prestigious awards from the Government of Maharashtra like the 'IT Enterprises 2009' (Special Award), the 'Green IT Infrastructure 2010', 'IT Enabled Services', 'Business & Service Excellence Awards 2012', and many more.

CtrlS | Hyderabad, India

CtrlS offers both public and private cloud services. The public cloud offering has three variants that are differentiated by the virtualisation technology deployed. The company operates through Parallels Virtuozzo Containers, Xen and VMWare.

Major open source-based offerings: The company's product, 'Real Cloud', is based on a Xen platform hypervisor which has been customised. The company has more than 100 open source images on the cloud, which include CMS, HRMS and CRM applications. All of these can be provisioned in a matter of 15 minutes from the cloud, ready to be used.

Leading clients: These include one of the largest telecom companies, the largest media house in the country and some of the leading portals.

USP: A choice of over 142 OS images, instant provisioning, easy-to-use Virtual Datacenter Control Console for instant deployment, scale and multiple VM management, high availability on clustered environments for all cloud users, and enhanced levels of security with a dedicated firewall for each cloud user.

Special mention: Gartner has listed CtrlS amongst the top cloud providers in India.
