The new Galaxy Note 800 tablet from Samsung

Samsung Electronics has rolled out a new tablet—the Galaxy Note 800. The device comes with the functionality and precision of a pen and paper, as it features the S Pen with a 25.6-cm (10.1-inch) large display. The tablet is based on a 1.4 GHz quad-core processor along with 2 GB RAM. Asim Warsi, vice president, Marketing, Mobile

Business, Samsung Electronics, said, "The tablet offers some unique features. Its multi-screen feature is one of the biggest talking points about the device. The feature allows users to utilise two different applications side-by-side, enabling them to multi-task. Users can view Web pages or videos or launch other applications while writing or sketching ideas with the S Pen on the other half of the screen. So one doesn't need to toggle back and forth between apps." The device comes with Adobe's Photoshop Touch preloaded. The creative application is optimised for Samsung's S Pen. In addition, the Galaxy Note 800 offers a mini-apps tray that can launch a selection of mini-apps on top of others. The apps include an alarm, S Note, a music player, e-mail, calculator and a world clock. The device also features the 'My Education' app, which has been developed to help school students take advantage of the digital environment.

Price: ₹ 39,990

HCL introduces a 3G Android tablet – the HCL ME Y2

HCL Infosystems Ltd has launched its latest 3G enabled tablet – the HCL ME Y2. This third generation tablet from HCL runs Google's Android 4.0. The company claims that the tablet is designed specially to suit the needs of Indian consumers. It offers 3G connectivity with its in-built SIM slot. Based on Android OS 4.0.3, the device is equipped

with a 2 mega-pixel rear camera and a 0.3 mega-pixel front camera, which enables video chatting with an HD display. The 17.8-cm (7-inch) tablet sports a multi-touch capacitive screen with a 1024 x 600 pixel display. The tablet runs on a Cortex A9 1 GHz processor. It comes with 1 GB RAM and 8 GB internal memory, along with a memory card slot that can add another 32 GB. The HCL ME Y2 also has a mini USB, mini HDMI and a microSD card slot. It has a robust 4000 mAh battery to deliver long hours of high definition audio and video playback. The Y2 is enabled with Bluetooth and also provides for Wi-Fi connectivity.

Commenting on the device, Gautam Advani, EVP and head, Mobility, HCL Infosystems Ltd, said, "The HCL ME Y2 is the third generation tablet from the company. The tablet promises to deliver an enhanced experience to customers through advanced connectivity and innovative features." The HCL ME Y2 will be supported by an integrated back-up service—HCL Touch, a 24x7 one-touch service facility. This latest device also offers the Hungama Application at a special rate for its customers. The subscription for the app is available for free for the first three months. It can be downloaded to play unlimited music and videos as well as access ringtones.
