

Figure 13: The GNOME extension control panel

has not yet caught up to that extent. Still, things are not too bad—the ever-growing development community is churning out extensions fast, and hopefully more useful extensions will soon find their way to us.

Developing extensions may be painful at times, given the ever-changing APIs and missing documentation. The biggest hurdle is the panel, which limits the number of

extensions you can install and use at any point in time. This may make developers wary of creating new extensions for GNOME's new desktop.

Overall, the GNOME extension experience is a very mixed bag, which will hurt the desktop. The ever-changing API has let developers down. The install experience wasn't great either, but thankfully many developers have provided multiple sources for installing their extensions—so even if the GNOME portal fails to meet your needs, you can always resort to other options.

Finally, if you use GNOME, you may want to try some of the listed (and other) extensions to enhance your desktop experience, though the currently available extensions may not really rock your world just yet. **END**

By: Shashwat Pant

The author is a FOSS/hardware enthusiast who likes to review software and tweak his hardware for optimum performance. He is interested in Python and Qt programming and is fond of benchmarking the latest FOSS distros.

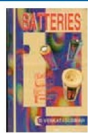

EFY BOOKS SERIES

Books For You!

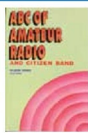

Rs 180/- (with CD)

By Gp. Capt. (Retd) K.C. Bhasin
Working principles, common faults and remedies, plus simple testing procedures

Rs 60/-

By D. Venkatasubbiah
Clears many misconceptions and doubts about small batteries and cells

Rs 75/-

By Rajesh Verma
Explains basics of electronics besides Ham radio and Citizen Band

Rs 80/-

By Gp. Capt. (Retd) K.C. Bhasin
Instructions for 40 popular and tested electronic hobby projects, plus much more

Rs. 300/- (with CD)

An application-oriented and resourceful book for engineering students, hobbyists, teachers and practicing engineers alike

Rs. 300/-

Collection of 60 simple projects, highly useful for engineering students, Teachers & Hobbyists
