Lenovo unveils the slim all-in-one PC—the IdeaCentre A720

Lenovo has launched the IdeaCentre A720, which the company claims is the world's slimmest all-in-one (AIO). Powered by third generation Intel® Core i7 processors, the IdeaCentre A720 offers a thin, frameless display that combines computing and entertainment in a stylish form factor.

The sleek 68.8-cm (27-inch) Lenovo IdeaCentre A720 creates a unique multi-player experience with a 10-finger multi-touch screen that folds down flat for interactive tabletop games, and is powered by the latest processor and graphics technologies.

With integrated entertainment features, such as Lenovo High-Sense (720p HD) Webcam and Lenovo IdeaTouch (a suite of touch-optimised applications and games), the IdeaCentre A720 becomes a stylish and fun addition to the modern home entertainment centre. It also happens to be OS agnostic and can run open source operating systems as well. It will be available at all Lenovo exclusive stores and major IT retail chains in India.

SWIPE Telecom introduces Android-based 3D tablet

California-headquartered SWIPE Telecom has introduced a range of three tablet devices in India. Of them, 3D LIFE looks the most interesting offering. The company claims that this is India's first 3D tablet PC, and its 3D gaming and 3D videos are targeted at children and the youth.

The tablet sports a 17.8-cm (7-inch) TFT five point touch capacitive screen packing 800x480 pixels. It runs Google's Android 4.03 Ice Cream Sandwich and an A13 Cortex processor on a 1.5 GHz clock speed. It comes packed with 4 GB of internal memory and a 512 MB DD RAM. The tablet can play videos for 5-6 hours at a stretch, and its 3400 mAH battery has a long life. 3D LIFE also boasts of a 2 MP front camera that supports video calling.
