Lava brings out its third Intel-powered phone

Lava, the Indian smartphone maker, has quietly unveiled its third Android smartphone under its XOLO sub-brand. The XOLO A800 sports an 11.4-cm (4.5-inch) qHD IPS display and runs Android 4.0. The device is powered by a 1 GHz dual-core processor and 512 MB RAM. The smartphone comes with an 8 MP rear camera and a 0.3 MP front shooter. Vishal Sehgal, co-founder and director, said, "The XOLO range of smartphones has been doing well in the Indian market. We have plans to launch more smartphones in the XOLO range soon. To make sure that more Indians can enjoy this technology, we will also bring down the price point of some of the models."

Karbonn enters big-screen smartphone market with 'Ta Fone'!

After several rounds of rumours, Karbonn has officially launched its A30 Ta Fone smartphone. The phone is dubbed as one of the biggest smartphones available in the country. It runs Google's Android 4.0 (ICS) OS and sports a 15-cm (5.9-inch) display, which is big, if not the biggest display screen on a smartphone available in India. The device is powered by a 1 GHz dual-core processor. Pradeep Jain, managing director, Karbonn Mobiles, said, "There is an aspiration value added to the phablets. Flaunting big screen smartphones is a trend. So, we see a great market for Ta Fone."

Lenovo joins the tablet brigade!

Lenovo, a well known name in the laptop space, has finally decided to enter the tablet segment in India. The company's Ideapad tablet PC is now available across the country. The Lenovo Ideapad A2107 comes with a 17.7-cm (7-inch) high definition HD display with a 1024x600 pixel resolution that offers enough brightness for easy outdoor readability and runs Android 4.0 (ICS). The device is powered by a 1 GHz Mediatek processor and 1 GB RAM. The device sports a 2.0 MP rear camera and a 0.3 MP front camera. The tablet is available with a manufacturer's warranty. It aims to compete with the Huawei MediaPad Lite in the Indian market.
