

“We are growing beyond Linux”

Gone are the days when Red Hat used to be synonymous with Linux. The company is strategically going beyond that conventional image and wants increased visibility in the enterprise space. The new leader of Red Hat India, Arun Kumar, has different plans for the firm. While he wants to build on the legacy he has inherited, he does not mind venturing into newer spaces. **Diksha P Gupta** from *Open Source For You* spoke to **Arun Kumar, general manager, Red Hat India**, about his new job profile and the days ahead. Read on...
