

CONTENTS

NOVEMBER 2025 | ISSN-2456-4885

FOR U & ME

- 16 Are You Overlooking the Risks of 'Open Source AI'?
- 19 Is Hybrid Reasoning the Next Big Thing in Artificial Intelligence?
- 26 Open Source Robotics: Opportunities and Challenges
- 30 "The AI revolution is here —and you are not too late to join"
- 36 Reducing AI's Dependence on Powerful GPUs

FOCUS

- 50 Building an IoT Product? Use OpenRemote
- 53 TinyML: Building Intelligence at the Edge of the Network

DEVELOPERS

- 66 Open Source MLOps Tools: Ideal for Managing ML Data Workflows
- 70 Deploying an AI Application Using Docker Model Runner
- 75 What Open Source RAG can do for Modern Enterprises
- 81 Harnessing the Power of Vibe Coding

ADMIN

- 86 Booting in Linux: Legacy BIOS versus UEFI
- 93 Deploy AI Applications Easily with Docker Offload
- 95 Crossplane: Simplifying the Management of Cloud Infrastructure

21

Demystifying Quantum Computing

34

Building Future-ready AI Hardware with Neuromorphic Computing and Sensing

42

Popular Simulation Platforms for the Internet of Vehicles

REGULAR FEATURES
