

Open Networking for the AI Era

SONiC, a Linux Foundation project, is the open-source network operating system powering hyperscale cloud and AI data centers worldwide. Engineered for speed, scalability, and vendor neutrality, SONiC enables high-performance Ethernet fabrics vital for AI training clusters and next-gen distributed computing.

Join a global community of developers, operators, and enterprises advancing open networking to break vendor lock-in and fuel innovation.

SONiC Workshop India 2025

SONiC Workshop India 2025 brought together engineers, researchers & open-source enthusiasts.

Stay tuned for next year's workshop — and be part of the journey!
