

Software Freedom Day: Past, Present and Future

Every year, Software Freedom Day (SFD) celebrates free software across the world. The aim is to increase awareness of free software and its virtues, and encourage its use. This year, SFD was celebrated on September 16.

Frederick Noronha caught up with **Jurgen Gaeremyn**, member of the Digital Freedom Foundation (the charity behind Software Freedom Day), to ask some pertinent questions about the history of the event, and its evolution over the years.

Jurgen Gaeremyn,
member of the Digital Freedom Foundation
