

Now you can withdraw cash from ATMs using Google Glass

Dominique Schroder, IT expert and assistant professor of cryptographic algorithms at the Saarland University in Germany, has come up with a new tool called 'Ubic', which would allow users of Google Glass to withdraw cash from ATMs, without losing their confidential data. Ubic essentially combines Google Glass with cryptographic methods and automated image analysis.

Users will first need to identify themselves to the cash machine in order to access it. Ubic will use the public key to encrypt the one-way personal identification number (PIN). It will then seal it additionally with a digital signature. The result will show up on the screen in the form of a QR code that is basically a black-and-white pattern that carries a unique PIN at the lower end. The PIN will only be visible to the identified wearer of Google Glass, and not to anyone else.

"Google Glass decrypts it and shows it in the wearer's field of vision. Although the process occurs in public, nobody is able to spy on the PIN," Schroder was quoted as saying. Moreover, the PIN is re-generated each time the customer uses the ATM, adding to greater security. Only the customer will be able to decrypt the encryption done by the public key, with the unique secret key. "As long as this is safely stored on the Google Glass, the user's money is also safe," Schroder added.

Meanwhile, wearable technology is gradually becoming the order of the day. After Galaxy Gear, Samsung is planning to launch its version of Google Glass. According to a report from Korea Times, the Google Glass alternative, codenamed as Galaxy Glass, is poised to debut in the upcoming IFA trade fair, scheduled to happen in Berlin.

CALENDAR OF FORTHCOMING EVENTS

Name, Date and Venue	Description	Contact Details and Website
4th Annual Datacenter Dynamics Converged April 24, 2014; Mumbai	The event aims to assist the community in the datacentre domain in exchanging ideas, accessing market knowledge and launching new initiatives	Email: info@datacenterdynamics.com ; Ph: 22 6636 4332; http://www.datacenterdynamics.com/conference
Enterprise CIO Summit 2014 May 16, 2014; Mumbai	Around 150 CIOs, CTOs, vice presidents (IT), and heads of IT are expected to attend this summit. They will share and discuss strategies on expansion of business and the use of technology. Speakers at the summit will share their vision and the path-breaking ideas that helped them transform their business.	Uma Varna, Manager-Marketing & Operations; Email: uma.varma@thelansannegroup.com ; Ph: 888402243; http://www.enterpriseciosummit.com/
9th Annual Datacenter Dynamics Converged May 26, 2014; Dubai	The event aims to assist the community in the datacentre domain by exchanging ideas, accessing market knowledge and launching new initiatives	Email: info@datacenterdynamics.com ; Ph: 22 6636 4332; http://www.datacenterdynamics.com/conference
2nd Annual The Global 'High on Cloud' Summit May 28-29, 2014; Mumbai	The summit will address the issues, concerns, latest trends, new technology and upcoming innovations on the Cloud platform. It will be a open forum, giving an opportunity to everyone in the industry to share their ideas.	Email: contactus@besummits.com ; Ph: 80 4963 7000; Website: http://www.theglobalhighoncloudsummit.com/#/about-the-summit/c24fs
4th Annual Datacenter Dynamics Converged September 18, 2014; Bengaluru	The event aims to assist the community in the datacentre domain in exchanging ideas, accessing market knowledge and launching new initiatives	Email: contactus@besummits.com ; Ph: 80 4963 7000; Website: http://www.theglobalhighoncloudsummit.com/#/about-the-summit/c24fs
Open Source India , November 7-8, 2014; NIMHANS Center, Bengaluru	It is the premier Open Source conference in Asia that aims to nurture and promote the open source ecosystem in the sub-continent.	Atul Goei-Sr.Product & Marketing Manager; Email: atul.goei@efyindia.com ; Ph: 0890 009 4211
5th Annual Datacenter Dynamics Converged December 9, 2014; Riyadh	The event aims to assist the community in the datacentre domain by exchanging ideas, accessing market knowledge and launching new initiatives	contactus@besummits.com ; Ph: 80 4963 7000; Website: http://www.theglobalhighoncloudsummit.com/#/about-the-summit/c24fs

movie 'Ram-Leela' to predict that the movie would have a good first weekend. IBM was 73 per cent confident of its prediction, and indeed the movie did have a good first weekend and went on to become a big hit.

IBM reportedly analysed over 700,000 posts on social networks like YouTube, Facebook and Twitter for 25 different films. The movies analysed include *Kahaani*, *Agneepath*, *Barfi*, *Ek Tha Tiger*, *Bhaag Milkha Bhaag* and *Kai Po Che*.

You can stream movie torrents to your Linux desktop!

To all the torrent users out there, here's some good news! Now you can stream torrents to your computer. A new open source application called Popcorn Time will let users stream movie torrents in Linux, as well as in Windows and OS X. This application, a first of its kind, is for those who are too impatient to wait for a torrent to download!

Popcorn Time lets users search the Web's torrents immediately and even helps in choosing the best version for you. Currently in beta, there are no usage restrictions to using the app, as of now. However, torrent users might be aware beforehand about the legal issues that entail watching movies via streaming torrents. The same set of 'legalities' also apply with Popcorn Time. Further, you will be seeding movies as well, so take note that even as you're leeching, you are also actively sharing the content as you watch it. Further, if you're using a
