

A List of **BIG DATA** Solutions Providers

Bodhtree | Hyderabad

The company's business domain expertise, coupled with rich technical competencies, enables it to define a Big Data strategy for an organisation, integrate Big Data into the organisation's overall IT roadmap, or architect and implement a solution. Bodhtree addresses some of the critical business challenges for global customers in the areas of customer analytics, natural language processing for social sentiment analysis, predictive analysis, log analysis and machine data analysis for MTBF, security and compliance validation. The offerings comprise Oracle Endeca services, Hadoop services, Google Big Query for SMBs, analytics and KTLO for Big Data stacks and patterns, and more.

Cloudera India

More organisations manage Big Data using Cloudera's Hadoop solutions, the company's 100 per cent open source and enterprise-ready distribution of Hadoop and related projects, than all other Hadoop distributions combined, claims the company. It's the most comprehensive Hadoop distribution available, and coupled with Cloudera Manager software and Cloudera support, it provides stability, integration and ease-of-use.

With Cloudera Enterprise RTD and Cloudera Enterprise RTQ, the company has dramatically increased Hadoop's effectiveness by delivering on the promise of real-time operations. It has done this by making Apache HBase and Cloudera Impala technologies manageable and fully supported, overcoming Hadoop's past interactivity limitations, and ushering in a new era of speed-of-thought interactive analysis on data stored in a Hadoop cluster.

CSC India | Noida

The CSC and Hortonworks alliance brings a wealth of expertise and benefits to organisations deploying enterprise-ready Apache Hadoop. This alliance enables CSC to resell subscription support for the Hortonworks Data Platform (HDP), the industry's only 100 per cent open source data platform powered by Apache Hadoop. CSC's solutions extend the reach of HDP to enterprises around the world by offering a supported Apache Hadoop platform to its enterprise customer base. Together, the CSC and Hortonworks alliance offers industry and technology expertise to enterprises deploying a next generation data architecture using Apache Hadoop, providing a fully tested, certified enterprise-ready Apache Hadoop solution to CSC's customers and clients.
