

software and specialised software developed by Oracle to deliver a complete, easy-to-deploy solution for acquiring, organising and loading Big Data into a database. With Big Data Connectors, the solution is tightly integrated with Oracle Exadata and Oracle Database. The Big Data Connectors deliver a high-performance Hadoop to Oracle Database integration solution and also enable optimised analysis using Oracle's distribution of open source R directly on Hadoop data. By providing efficient connectivity, Big Data Connectors enables analysis of all data in the enterprise—both structured and unstructured.

Once data has been loaded from Oracle Big Data Appliance into Oracle Database or Oracle Exadata, Oracle Exalytics can be used to deliver a wealth of information to the business analyst. Oracle Exalytics is an engineered system providing speed-of-thought data access for the business community. It is optimised to run Oracle Business Intelligence Enterprise Edition with in-memory aggregation capabilities built into the system. Oracle Big Data Appliance, in conjunction with Oracle Exadata Database Machine and the Oracle Exalytics Business Intelligence Machine, delivers everything customers need to acquire, organise, analyse and maximise the value of Big Data within their enterprise.

Sesame Technologies | Calicut

Sesame claims to be the first company in Kerala to provide solutions in Hadoop, Hive and Mongo DB. The company has a good team dedicated to providing Hadoop-based solutions. It can set up offshore development centres (ODCs) in a 'Build Operate and Transfer' mode and also on a 'Build and Operate' basis for clients who need Hadoop and Big Data-based solutions.

Teradata India | Mumbai

Teradata provides a single source for all things related to Apache Hadoop. Teradata not only integrates with Hadoop, but also delivers engineered and supported Hortonworks appliances that go beyond standard Hadoop.

The Teradata portfolio for Hadoop provides customers with the most trusted and flexible Hadoop product platforms in next-generation data architecture with new best-in-class services, training and customer support. Clients can use Teradata as an exclusive, secure gateway into their Hadoop systems by only allowing access through Teradata SQL-H.

Trendwise Analytics | Bengaluru

Trendwise Analytics is a premier global provider of Hadoop-based solutions, cloud computing and Big Data analytics. The company was recently recognised as one of the most promising Big Data companies in India. Trendwise Analytics has some premier partners like JasperSoft, Cloudera, HPCC Systems, Hortonworks & Pingar, Datastax and MapRTechnology. Some of its satisfied clients are EGR, Appcara, Electronique Microtech, Cirrus, and Wiley. The company's other services include advanced analytics, social media analytics and mobile dashboards.
