

DVD OF THE MONTH

This 11th Anniversary Issue Brings You Amazing Multiple Distro on a Single DVD!

PCLinuxOS 2013.12:

This is a user-friendly Linux distribution that has great support for many well-known graphics and sound cards, as well as other peripheral devices. This bootable live DVD of PCLinuxOS KDE Desktop comes with an easy-to-use graphical installer, and the distribution sports a wide range of popular applications for the typical desktop user.

The DVD also has an ISO image of PCLinuxOS MATE Desktop.

openSUSE 13.1:

This is a free and Linux-based operating system for your PC, laptop or server that allows you to have fun with your computer. This month's DVD packs a double treat for openSUSE fans.

You can explore the ISO images of:

- * **Live GNOME (32 bit):** A GNOME desktop you can run from the DVD or from a USB stick.
- * **Live KDE (32 bit):** A KDE desktop you can run from the DVD or from a USB stick.

pfSense 2.1:

We have also bundled a free, open source, customised distribution of FreeBSD tailored for use as a firewall and router. This robust open source firewall comes with an easy-to-use Web interface that allows you to configure it.
