A wireless mouse from Rapoo, with a great battery life

A wireless mouse with a prolonged battery life is a rarity these days. But Rapoo, the maker of wireless peripheral products, has come out with a mini wireless mouse—the Rapoo 3100P that the company claims has a solid battery life. It has 5 GHz wireless transmission, which avoids the interference of 2.4 GHz wireless, Bluetooth and Wi-Fi devices. The Rapoo 3100P is designed with the latest energy saving technology and power switch, so that one can use the mouse without power interruption for up to 18 months. Its key features, apart from the reliable 5GHz wireless connection, include a 360 degree range and a long transmission distance of up to 10 metres, 1000 DPI high precision tracking engine, and a ‘low battery’ indicator. The Rapoo 3100P wireless mini mouse has a two-year replacement warranty and is available ex-stock. Sunil Srivastava, manager, India Sales and Marketing at Rapoo India, says, “Rapoo’s 3100P is a perfect blend of style, power and enhanced battery performance. We always strive to offer a varied range of innovative products for our consumers.”

Simtronics widens its horizons in the smartphone segment

Simtronics, a brand that has carved a niche for itself in the tablet space, has joined the smartphone brigade. The company has launched its first smartphone, the XPad M1 Amazoid, which runs on Android 4.1 (Jelly Bean). The smartphone comes with an 11.93 cm (4.7 inch) capacitive touch screen and is powered by a 1.2 GHz dual core processor. Packed with an 1800 mAh battery, it has an 8 MP rear and a 2 MP front camera. The XPad M1 Amazoid is powered with 512 MB of RAM and has 4 GB of internal memory. Says Indrajit Sabharwal, managing director, Simtronics, “Smartphone usage is increasing day by day. Keeping in mind the demand for budget smartphones, venturing into the segment was the next logical step for us. Moreover, unlike others, we are planning to manufacture smartphones in India.”

Lenovo goes ‘sleek’ with Vibe X

If you desire to own a sleek and a feature-rich smartphone, Lenovo’s Vibe X can be a good buy. Priced at Rs 25,999, the Vibe X comes with a 12.7 cm (5-inch) full-HD display that has a resolution of 1080 x 1920 pixels. Armed with a 1.5 GHz quad-core MediaTek (MTK 6589T) processor and 2 GB of RAM, the smartphone runs on Android 4.2 (Jelly Bean). It has a frame measuring 6.9 mm and weighs a mere 121 grams. Powered by a 2,000 mAh battery, Vibe X comes fitted with a 13 MP rear and a 5 MP front camera. Sudhin Mathur, director, Smartphones at Lenovo, says, “We have launched the Vibe series and Vibe X is the first product of the bunch. The smartphone is designed for those who are looking for a premium, smart device that is high on functionality, and is armed with a lot of unique apps and features. You need to get your hands on it to believe my statement.”
