Here comes an NFC-enabled Bluetooth portable speaker!

Astrum Holdings has introduced the latest NFC (Near Field Communication)-enabled portable Bluetooth speaker, the Symphony BT-027N, which is great for those who love to enjoy music while on-the-go.

Due to the speaker's built-in NFC capabilities, users just need to tap on their NFC-enabled smartphones or tablets to connect to it. The device also has a built-in noise filter microphone for conferencing. The speakers are fitted with a rechargeable battery, allowing up to 10 hours of play time.

The specs of the Symphony BT-027N are: a total output of 6W RMS, Bluetooth version 3.0, one-touch NFC support, 2 + 2 drivers with passive radiators for 360-degree sound, rechargeable lithium ion battery (3.7 V/1300 mAh), AUX and TF card, and an anti-skid surface.

Astrum's Symphony BT-027N is available ex-stock with Emporis Peripherals. It is backed by a carry-in one-year warranty.

Netgear launches its N300 Wi-Fi modem router

With online gaming becoming more mainstream, there's been an increase in the demand for speed and reliability for simultaneous downloads. For which, Netgear has unveiled its N300 Wi-Fi modem router—the Essentials Edition (D1500). This packs in a built-in ADSL2+ modem for use with DSL, cable or fibre Internet services. The external antennas added to the device provide improved Wi-Fi coverage. The modem delivers performance speeds of up to 300 MBps. It includes features such as Ethernet WAN for easy upgrade to cable or fibre.

The modem provides for sharing and streaming movies, music and photos, while maintaining the highest level of wireless security with WPA/WPA2. It offers a simple browser-based installation process.

Netgear's new Wi-Fi modem router will soon be available in India with its authorised distributors.
