

Xerox WorkCentre 5845, 5855, 5865, 5875 and 5890 MFPs

- These devices print and copy up to 45 and 55 pages-per-minute (ppm) (the 5845/5855 models). A speed of 90 ppm for businesses with higher print volumes is offered by the 5865, 5875 and 5890 MFPs.
- They can scan full-colour documents at the rate of up to 200 images per minute.
- Come with a more efficient toner—one that provides superior image quality, lasts longer and is easily replaceable by any user in the office, decreasing both maintenance and downtime.
- Have several environmentally-sensitive features including ENERGY STAR specifications, a 'power save' option that conserves electricity, and Xerox's 'Earth Smart' setting to help users select the most environmentally conscious print options.

HP Color LaserJet Pro MFP M476

- Supports embedded print options for Android-based devices as well as simple, secure mobile print options including NFC touch-to-print and wireless direct.
- Comes with the Lightweight Directory Access Protocol (LDAP) feature that simplifies access control for the scan, fax or copy functions, and improves productivity with corporate email directory lookup.
- Comes in two variants - HP Color LaserJet Pro MFP M476nw and M476dn.

HP LaserJet Pro MFP M126nw

- Offers print, copy, scan and fax features.
- Comes with wireless direct printing, allowing small business owners to stay productive with easy, intuitive printing from smartphones, tablets and PCs.
- First HP three-in-one, black-and-white laser printer that comes with network and wireless features, making it an affordable proposition for SMB customers.
