I am a design engineer.

I plan to attend Electronics Rocks '14 this October to learn how to create products and to innovate. I would love to meet the experts and people from companies that provide products and solutions which will help me be more innovative.

Prateek Jain,
Design Engineer

There will be 1400+ engineers, entrepreneurs, hackers and some really big design houses attending the conference to listen to 50+ experts from around the globe.

3rd Edition
