

India gets its first 'School in the Cloud'!

The dream of Sugata Mitra, Newcastle University professor for educational technology, to bolster learning in communities where there's a lack of access to basic education, has finally come to life. In his attempt to end schooling as we know it, Mitra's ambitious 'School in the Cloud' has opened its first branch in New Delhi. The concept here is simple: minimally invasive education that allows kids to ask and answer questions for themselves!

"Working in small groups, children can competently search for answers to 'big questions', drawing rational, logical conclusions. This is far ahead of what is expected of them in their school curriculum and is a kind of learning activated by questions, not answers," Suneeta Kulkarni, research director for the School in the Cloud project was quoted as saying. Mitra's fascination with the cloud began back in 1999 when his 'Hole in the Wall' experiment brought computers into rural Indian villages. 'School in the Cloud' is simply an extension of the same concept.

US army uses Linux-powered rifles

In what can be termed as a notable success for the open source world, the US army has purchased smart rifles that are powered by Linux for its soldiers.

TrackingPoint, an Austin, Texas-based applied technology company, has revealed that the US military has purchased six smart rifles, priced between US\$ 10,000 and US\$ 27,000. With this rifle, a soldier just needs to tag a target seen on the screen found on the gun's scope. The Linux powered computer fitted within the gun will then tell the shooter how to hold the gun and when to press the trigger to hit the target accurately. This rifle is a clear example of how flexible and powerful Linux is.

CALENDAR OF FORTHCOMING EVENTS

Name, Date and Venue	Description	Contact Details and Website
Enterprise CIO Summit 2014 March 21, 2014; Mumbai	Around 150 CIOs, CTOs, vice presidents (IT), and heads of IT are expected to attend this summit. They will share and discuss strategies on expansion of business and the use of technology. Speakers at the summit will share their vision and the path-breaking ideas that helped them transform their business.	Uma Varma, Manager-Marketing & Operations; Email: uma.varma@thelassanegroup.com; Ph: 888422343; http://www.enterpriseiosummit.com/
RubyConf India 2014 March 22-23, 2014 March; The LaIT Golf & Spa Resort, Goa	The event is a great opportunity for Ruby enthusiasts to brainstorm, network and learn about the latest technology changes first-hand.	Gautam Rege; Email: gautam@joshsoftware.com; Ph: 91 9881395656; http://rubyconfindia.org
4th Annual Datacenter Dynamics Converged April 24, 2014; Mumbai	The event aims to assist the community in the datacentre domain in exchanging ideas, accessing market knowledge and launching new initiatives	Email: info@datacenterdynamics.com ; Ph: 22 6636 4332; http://www.datacenterdynamics.com/conference
9th Annual Datacenter Dynamics Converged May 26, 2014; Dubai	The event aims to assist the community in the datacentre domain by exchanging ideas, accessing market knowledge and launching new initiatives	Email: info@datacenterdynamics.com ; Ph: 22 6636 4332; http://www.datacenterdynamics.com/conference
2nd Annual The Global 'High on Cloud' Summit May 28th and 29th; Mumbai	The summit will address the issues, concerns, latest trends, new technology and upcoming innovations on the Cloud platform. It will be a open forum, giving an opportunity to everyone in the industry to share their ideas.	Email: contactus@besummits.com ; Ph: 80-49637000; Website: http://www.theglobalhighoncloudsummit.com/#about-the-summit/c24fs
4th Annual Datacenter Dynamics Converged September 18, 2014; Bengaluru	The event aims to assist the community in the datacentre domain in exchanging ideas, accessing market knowledge and launching new initiatives	Email: contactus@besummits.com ; Ph: 80-49637000; Website: http://www.theglobalhighoncloudsummit.com/#about-the-summit/c24fs
Open Source India, November 7-8, 2014 NIMHANS Center, Bengaluru	It is the premier Open Source conference in Asia that aims to nurture and promote the open source ecosystem in the sub-continent.	Atul Goel- Sr.Product & Marketing Manager; Email: atul.goel@elyindia.com ; Ph: 0880 009 4211
5th Annual Datacenter Dynamics Converged December 9, 2014; Riyadh	The event aims to assist the community in the datacentre domain by exchanging ideas, accessing market knowledge and launching new initiatives	contactus@besummits.com ; Ph: 80 4963 7000; Website: http://www.theglobalhighoncloudsummit.com/#about-the-summit/c24fs

on its work to address a variety of additional capabilities and features in subsequent releases," claim sources in OpenDaylight.

The OpenDaylight project is an open source platform meant for network programmability that will enable SDN, and create a solid foundation for Network Functions Virtualisation (NFV) for networks. Hydrogen is now available for download and subsequent evaluation, commercialisation and deployment of SDN and NFV. It includes prebuilt-versions for RPM-based Linux distros and ready-to-run Hydrogen OpenDaylight virtual machines for Fedora and Ubuntu.

Hydrogen is available in three different editions: Base Edition, Virtualisation Edition and Service Provider Edition.

Linux Kernel 3.13.1 released

Linux Kernel developer, Greg Kroah-Hartman has officially announced the first update for the stable Linux kernel 3.13. The update is only a small one, with minute changes and fixes. However, succeeding versions would eventually pick up pace. Greg's announcement reads:

"I'm announcing the release of the 3.13.1 kernel. All users of the 3.13 kernel series must upgrade. The updated 3.13.y git tree can be found at: [git://git.kernel.org/pub/scm/linux/kernel/git/stable/linux-stable.git](https://git.kernel.org/pub/scm/linux/kernel/git/stable/linux-stable.git) linux-3.13.y and can be browsed at
