The company has a dedicated placement cell to help students get the right headstart in their career. Network NUTS' students can be found in IBM, HP, Orange, ST Microelectronics, HCL, Progressive Infotech, India Mart, Inventum and other national and international companies.

Root Shell Technologies | Hyderabad

Root Shell delivers IMS (integrated management system) excellence through managed IT services, consulting and training services. Its learning and development division addresses this critical need by delivering a complete and flexible range of training services. These are delivered onsite or at its state-of-the-art training facilities, ensuring effective skills-transfer for UNIX, backup, storage, virtualisation and Hadoop technologies. It offers customised learning offerings as per the client's requirements.

SUSE India | Bengaluru

SUSE offers the Linux Certification Program in conjunction with leading academic institutes and training partners across the globe. In India, it has partnerships with the leading institutes and organisations that specialise in Linux-based trainings. SUSE is part of the Attachmate Group, a private holding company, which also owns Attachmate, NetIQ and Novell. Some of the institutes SUSE is partnering with are Karunya University, Coimbatore Institute of Technology, Acharya Institute of Technology, Graphic Era University, Maharishi Arvind College of Engineering, BS Abdur Rahman University and Swami Keshvanand Institute of Technology, Management & Gramothan, Jaipur. This certification programme is offered by the institutes at two levels—SUSE Linux Enterprise Server 11 Administration Course and the SUSE Linux Enterprise 11 Advanced Administration Course. The programme has been designed to provide an edge to students and professionals alike, with custom-made modules that scale up their "administration and advanced administrative skills in SUSE Linux."

Veda Solutions | Hyderabad

Veda Solutions offers advanced training in Linux Programming Essentials, Linux Device Drivers, Embedded Linux, Linux Debugging and Android—all designed for programmers. Its students have been placed with companies like Visiontek, OneConvergence, Bartronics, Vedams, PanTerra Networks, Spectracore, etc. It is also the only provider of online training of the above mentioned courses in India.

Venus Technology Park (VTP) | Bengaluru

The basic aim of VTP is to innovate, adapt and implement responsible technology using open source tools as well as other technologies and platforms. It also aims to be recognised as a premier solutions provider, churning out good professionals with its in-depth training programmes. It offers programmes like Red Hat Virtualization (RH318), Red Hat Systems Administration, Red Hat Systems Administration II, Red Hat Systems Administration III, Red Hat Enterprise Security-Network Service Enterprise, Red Hat Enterprise Linux Troubleshooting, Red Hat Certified Virtualization Administrator, the RHCSA Rapid Track Course, the RHCE Rapid Track Course and more.
