

Acquia India; Lux Rao, CTO, technology services, HP India; Vidya Sakar, engineering manager, Dell, India; and Vikas Jha, director, Unotech Pvt Ltd.

3. *A new track called 'Success stories' was introduced:* In the 10th edition of OSI, we introduced a new track, called 'Success stories'. Here, CIOs and IT implementers of companies narrated their stories on how open source technology helped them leverage their IT infrastructure and enhance their ROI. This track is of immense use to those who want to maximise their business' productivity through open source.
4. *Technical workshops:* There were more than 10 technical workshops at OSI 2013. These included: Android application development, building your personal cloud with OpenStack, developing games with HTML5 for the Web and the mobile, Android application testing for consumer and enterprise applications, to name a few.

What OSI 2014 offers you

Every year, OSI becomes bigger and better. The 11th edition of OSI aims to take this event a notch higher by focusing on the open source ecosystem in Asia, and more specifically, in India. If you are a developer, IT implementer, CIO, CTO or just someone who is passionate about open source, you will find information-packed sessions and great content related to FOSS. If you are not a FOSS enthusiast but curious to know what it is all about, this event is for you as well. Of the many interesting tracks, eminent speakers and technical workshops, there are bound to be some amazing features that will definitely entice you to the event.

- **Wipro will be hiring at this event:** IT giant, Wipro Technologies, has tied up with Open Source India 2014 for recruiting applicants for diverse profiles. For more information on this, visit www.osidays.com
- **HP Helion's developer challenge:** HP is conducting a developer challenge at the event for all the attendees. Not much information has been shared by the company as yet, but it surely will be worth the wait!
- **Microsoft's interoperability demonstrations:** Microsoft is arranging a special hands-on event on how it interoperates with open source software. It is a not-to-be-missed workshop!

Be a part of OSI, and celebrate the spirit of FOSS!

We have given you enough reasons to be a part of this tremendous event. If that is not sufficient, we have more to offer. Come to the event and build networks because we offer networking sessions as well. The Q&A sessions in each track will help you interact with the speakers. OSI gives you a platform to seek knowledge and associate with a lot of FOSS lovers. You will also get to meet and interact with the leaders in the open source domain. Open source is gradually taking

over the tech world so make sure you stay updated with the evolving technology, interesting workshops and some really inspiring success stories.

We look forward to your presence! 

Workshops @ OSI 2014

MySQL Performance Tuning

Ronen Baram, MySQL Sales Consultant and Nitin Mehta, MySQL Sales Consultant

Drupal In A Day

Pavithra Raman, Solutions Architect, Acquia, India

HP Helion OpenStack Technical Overview

Srinivasa Acharya, Engineering Manager, HP Cloud

Programming OpenStack - An Application Development Tutorial Using the HP Helion Development Platform

Rajeev Pandey, HP

BigData (what, why and how)

Try your hand at installing the HADOOP ecosystem

Vikash Prasar, Big Data consultant

EMBEDDED SOFTWARE DEVELOPMENT COURSES AND WORKSHOPS

Embedded RTOS - Internals, Programming, BSP and device drivers - on ARM

FACULTY : Babu Krishnamurthy
(Visiting Faculty, CDAC/ACTS - with 18 years of Industry and Faculty Experience)

AUDIENCE : BE/BTECH Students, PG Diploma Students, ME/MTech Students and Embedded / sw Engineers

DATES : November 2014 - 3 days program
Day 1 : FreeRTOS Primer, Internals and APIs
Day 2 : FreeRTOS Programming, and BSP and Drivers Framework
Day 3 : FreeRTOS BSP and Drivers Programming

VENUE: School of Embedded Software Development, M.V. Creators' Wing, 3rd Floor, #218, Sunshine Complex, Kammanahalli, 4th Main, 2nd Block, HRBR Layout, Kalyan Nagar, Bangalore - 560043. (Opposite to HDFC Bank, Next to FoodWorld and near JalaVayu Vihar)

Email : babu.krishnamurthy@yahoo.com
Phone : 080-41207855
SMS : +91-9845365845 (leave a message and we will call you back)

UPCOMING COURSES :
Linux Device Drivers - Architecture, Internals and Programming
Dates - January 2015 - 4 days program
