

A few desktop motherboards with the latest chipsets

Intel: DZ87KLT-75K motherboard

- **Supported CPU:** Fourth generation Intel Core i7 processor, Intel Core i5 processor and other Intel processors in the LGA1150 package
- **Memory supported:** 32GB of system memory, dual channel DDR3 2400+ MHz, DDR3 1600/1333 MHz
- **Form factor:** ATX form factor

Asus: Z87-K motherboard

- **Supported CPU:** Fourth generation Intel Core i7 processor, Intel Core i5 processor and other Intel processors
- **Memory supported:** Dual channel memory architecture supports Intel XMP
- **Form factor:** ATX form factor

Simmtronics SIMM-INT H61 (V3) motherboard

- **CPU supported:** Intel Core2nd and Core3rd Generation i7/i5/i3/Pentium/Celeron
- **Main memory supported:** Dual channel DDR3 1333/1066
- **BIOS:** 1×32MB Flash ROM
- **Connectors:** 1×4-pin ATX 12V power connector
- **Chipset:** Intel H61 (B3 Version)

Gigabyte Technology: GA-Z87X-OC motherboard

- **CPU supported:** Fourth generation Intel Core i7 processor, Intel Core i5 processor and other Intel processors
- **Memory supported:** Supports DDR3 3000
- **Form factor:** MicroATX
