iberry's new smartphone and tablet run on Android KitKat

iberry has launched two new devices in the Indian market: a tablet and a smartphone. The Auxus AX04i tablet features a 17.78cm IPS display. It is powered by a 1.3GHz dual-core processor coupled with 512MB of RAM. It sports a 2MP rear camera and a front-facing 0.3MP camera. It has 4GB of inbuilt storage expandable up to 64GB. The dual-SIM device runs Android 4.4 KitKat out-of-the-box. It has a 3,000mAh battery.

The company's other launch—the iberry Auxus Note 5.5 smartphone—features a 13.97cm, HD Active Matrix OGS display with a 720×1280 pixel resolution with Corning's Gorilla Glass protection. It is powered by a 1.7GHz octa-core MediaTek (MT6592) processor coupled with 2GB of RAM. It sports a 13MP rear camera with an LED flash and a secondary 8MP front-facing camera. The highlight of the device is the inclusion of a fingerprint scanner that until now has been seen only in high-end devices. In addition, it comes with a unique 'Harlequin' LED notification system that has seven different notification colours for users.

Prices:
iberry Auxus Note 5.5:
₹ 13,990

Panasonic launches the Eluga U premium smartphone

Panasonic has launched the first of its Eluga series of premium smartphones in India. The Eluga U runs Android 4.4.2 KitKat out-of-the-box, and offers dual SIM (micro SIM) support. It features a 12.7cm (5-inch), 720×1280 pixel resolution IPS OGS display, and is powered by a 1.2GHz quad-core Qualcomm Snapdragon 400 processor coupled with 2GB of RAM. It comes with a 13-megapixel autofocus rear camera with an LED flash, and a 2-megapixel resolution front-facing camera. The smartphone features 16GB of built-in storage that's expandable via microSD card (up to 32GB). The Panasonic Eluga U weighs 141 grams, and measures 141.5×71.3×7.95mm. The smartphone has a 2500mAh battery. Connectivity options include 3G, Wi-Fi, Wi-Fi Direct, Wi-Fi Hotspot, Bluetooth 4.0, and GPS/A-GPS. This smartphone runs on the latest interface that is also optimised for one-handed use. It comes with an FM radio.

LG's new desktop runs on Google's Chrome OS

While ideal for laptops (like the Chromebook), Google's Chrome OS has occasionally found itself on desktop PCs. LG is exploring the latter option with its forthcoming all-in-one desktop running Google's Chrome OS. The LG Chromabase 22CV241 has a 54.61cm (21.5-inch) screen with 1.92×1.08 full HD display resolution and is powered by a fourth generation Intel processor. It has 2GB RAM and 16GB SSD storage. It also comes with HDMI inputs for using the display with other devices. It is enabled with Ethernet, three USB 2.0 ports and one USB 3.0 port. It has built-in Wi-Fi and Bluetooth connectivity. It also features a 1.3MP camera with dual 5W speakers and a good quality microphone. It has an Intel Celeron Haswell processor and comes with a keyboard, mouse, cable organiser and 100GB of Google Drive space.
