Zebronic launches a keyboard-mouse combo—the Judwaa 6

Top Notch Infotronics has introduced Judwaa 6 – the latest keyboard-and-mouse combination, under the Zebronic brand umbrella. The full-featured keyboard allows the user to perform various media and Internet functions at the touch of a single button. It is equipped with high quality membrane keys that have a high resistance level and are long lasting. The combo is compatible with all the versions of Windows and Linux-based operating systems as well. The new compact Judwaa 6 ensures ultra-reliable connectivity that virtually eliminates delays, dropouts and interference. The keyboard has eight multimedia function keys on top. It's stylish design and slim profile makes it attractive and comfortable to use. The mouse of the set has an 800/1600 DPI high-precision optical sensor to change the sensitivity as per requirements. The 1.5 metre cable length of both devices is long enough for easy use.

Rajesh Doshi, director, Purchase and Marketing, Top Notch Infotronics India Pvt Ltd, said, "We aim at making premium products, which are not only comfortable but stylish as well."

Karbonn launches 'Made in India' tablet

With the launch of 3G Agnee, Karbonn Mobiles claims that the tablet is not assembled, but 'made' in India. The 17.7-cm (7-inch) tablet sports a capacitive screen, Qualcomm's 1 GHz Snapdragon processor and a 4000 mAh Li-Polymer battery.

The company claims that the battery of the device can last for five hours. The tablet comes with the iCARE education solution, which claims to provide new ways of learning at school. Pradeep Jain, managing director, Karbonn Mobiles, said, "Karbonn Agnee is the first indigenous tablet, which offers the 3G data and voice facility. The device has been designed and developed in India by Innominds and aims to provide a collaborative platform for students and faculty."

Swipe's dual SIM 3G Android tablet, now in the spotlight

Now, we have a tablet with a dual SIM card slot. Swipe Telecom has introduced its dual-SIM 3G tablet named the Swipe Tab All-in-One. The company claims it is India's first dual SIM 3G Android tablet. The tablet runs Android 4.0.3 (ICS), sports a 17.8-cm (7-inch) capacitive touch screen with 5-point multi-touch, and has a display resolution of 1028 x 768. The device is powered by a 1.5 GHz processor. The tablet has a 2 MP rear camera, along with a 1.5 MP front facing camera. Shripal Gandhi, founder and chief executive officer, Swipe Telecom, says, "We are planning to add more products to our tablets portfolio soon."
