## Are You In Suspense?

**Are you wondering what happened to your order or payment, even after a fortnight? But did you mention your name and address clearly while sending payment, and what the payment was for?**

We get several payments every month without adequate instructions or even identity of the person sending the payment. As a result we are unable to take appropriate action on these, till we get a complaint - if at all.

At EFY, we want you to be our satisfied customer. So please do let us know in case your payment or instructions are not even acknowledged within a fortnight. We are not that lazy!

Giving more details about the distro, Bezencon informed, "You get a Web browser, email, a music and movie player, a CD/DVD burner, office software, voice chat, a photo editor, network access tools, printing and the Linux Lite Help Manual. All the tools you need are available out-of-the-box—to get you up and running straight away and using Linux Lite productively as soon as you've installed it."

Linux Lite is based on Ubuntu 12.04 LTS with five years' support. The following software is included: GParted, LibreOffice Writer, LibreOffice Calc, the XFBurn CD/DVD burner, the VLC Media Player, the Firefox Web browser with Flash, OpenJDK Java v6, Mumble Voice Chat, Thunderbird Email, the XChat IRC client, the GIMP image editor, the Leafpad text editor and Xarchiver.

### Attachmate launches Reflection 2011 R3

Attachmate Corporation has announced the availability of Attachmate Reflection 2011 R3, a family of terminal emulation and PC X server software that securely connects desktop and mobile users to mission-critical business applications.

Compatible with Windows 7 and Windows 8 Certified, Attachmate's new terminal emulator software

connects users to enterprise applications running on IBM mainframes (including the new IBM zEnterprise EC12), IBM AS/400 (IBM System i), UNIX/Linux servers and HP NonStop.

"With the impending launch of Windows 8 and excitement surrounding the new operating system, it's important to support customers regardless of their operating system choice in this evolving landscape," said Tom Bice, vice president, Marketing and Product Management at Attachmate. "As the leader in the market, our customers expect Attachmate to assist them with reliable access to critical business information while adopting new technologies like Windows 7, yet also looking forward to the next version of Windows, whether on a PC or mobile device."

In addition to assisting customers in easing migration pains, Reflection 2011 R3 provides organisations with an opportunity to leverage the latest productivity and security enhancements whether they are upgrading from previous Attachmate versions or replacing other solutions in an effort to standardise.

Reflection 2011 R3 is available immediately for purchase. For more information on pricing, please contact sales@attachmate.com.

### An Android smartphone for the visually impaired

Now even the visually impaired can enjoy the power-packed features of an Android smartphone. Qualcomm has introduced its Ray mobile device for the visually impaired. According to the company, the Ray device is "...an always-on, easy-to-use, multi-function smartphone synchronised with audio books from Israel's Central Library for the Blind, Visually Impaired and Handicapped." Till now, the blind and visually impaired were forced to use simple 2G mobile phones catering only to voice telephony. The World Health Organisation has highlighted the shocking truth that about 285 million people are visually impaired worldwide: 39 million are blind and 246 have low vision. Most of the visually impaired are over 50 years old and this group forms 20 per cent of the world's population.

The less fortunate visually impaired have to depend on devices like audio book-readers, colour readers, navigation tools, raised Braille labels, special
