

for these browsers, with respect to default locales. If the application size increases, the compile time will be high. The list of supported browsers is given in *UserAgent.gwt.xml* of *com.google.gwt.user* in *gwt-user.jar*.

```
<set-property name="user.agent" value="ie6" /> // only IE6 is supported
```

We can define the required browser support in the module descriptor file, as above. In that case, only output compatible with the defined browser will be generated and supported.

Client bundles

All the resources used in the application (image/CSS/text files) are handled in a better way through the *ClientBundle* interface. In order to use client bundle functionality, you have to inherit the corresponding module in the application:

```
<inherits name="com.google.gwt.resources.Resources"/>

public interface SampleResources extends ClientBundle {

    public static final SampleResources RES_INSTANCE = GWT.
create(SampleResources.class);

    @Source("application.css")
    public CssResource cssResource();
}
```

```
@Source("logConfig.xml")
public TextResource initialConfigurationFile();

@Source("helpManual.pdf")
public DataResource ownersManualDocument();
}

// Inject the contents of the CSS file
SampleResources.RES_INSTANCE.cssResource().ensureInjected();
// Display the manual file in an iframe
new IFrame(SampleResources.RES_INSTANCE.ownersManualDocument().
getURL());
```

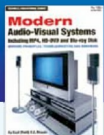

We have to define an interface by extending the *ClientBundle* interface, and declare all resources used in the application, categorising them as *CssResource*, *TextResource*, *DataResource*, *ImageResource* and so on. By defining the resources this way, the entire application's resources will be downloaded as a bundle, not as individual files. This increases the performance of the application by reducing the number of server hits for downloading resources. **END**

EFY BOOKS
SERIES

Books For You!

Rs 180/- (with CD)
By Gp. Capt. (Retd) K.C. Bhasin
Working principles, common faults and remedies, plus simple testing procedures

Rs 60/-
By Dr. Venkatasubbiah
Clears many misconceptions and doubts about small batteries and cells

Rs 75/-
By Rajesh Verma
Explains basics of electronics besides Ham radio and Citizen Band

Rs 80/-
By Gp. Capt. (Retd) K.C. Bhasin
Instructions for 40 popular and tested electronic hobby projects, plus much more

Rs. 300/- (with CD)
An application-oriented and resourceful book for engineering students, hobbyists, teachers and practicing engineers alike

Rs. 300/-
Collection of 60 simple projects, highly useful for engineering students, Teachers & Hobbyists
