

Ask me to do things just by talking to your phone. Do Siri features in iPhone 4S excite you, but you don't own an iPhone? I bring a conversational interface, intelligence and many more capabilities on Android. Some of the additional services I currently provide are: personalised recommendations, smart filters, a daily brief, health planner, travel planner, notes management, social updates, personalised deal reports, personal radio..."

These features make it a close competitor (or a replica) to Siri. Unlike Siri, which works only on iPhone 4S, Cluzee works on all Android devices that run Android Eclair 2.1 or later versions. However, the initial reviews reveal that the app seems to force-close whenever users attempt to open it. Some Android users say that it appears to be pretty good. If you wish to have your share of Cluzee, head over to the Android Market for a free download.

Popular game Medieval arrives on Android

The castle defence game better, known as Medieval, has been very popular on Apple iOS devices. Brisk Mobile, the creator of Medieval, has now announced the arrival of this game on the Android platform. The game already enjoys over two million downloads worldwide on iOS platforms. The company has now offered this action game to Android lovers and at a reduced price as well. The main objective of the game is to protect the castle from opponents' attacks. The game is currently priced at Rs 100.

Wind River joins hands with Clarion

Wind River, a world leader in embedded and mobile software, announced that Clarion, a leading manufacturer of **WIND RIVER** high-performance in-car entertainment systems, is collaborating with Wind River to develop Android-based in-vehicle infotainment (IVI) systems.

Wind River is creating a custom Android software platform for an automotive environment and providing software integration services to ensure Clarion delivers a reliable and high-quality device. Leveraging Android's flexibility for innovation, Clarion Malaysia's new IVI device is designed to deliver a compelling user experience, especially in areas of multimedia, entertainment and connectivity. The Clarion Malaysia IVI device is based on the Freescale i.MX applications processor family. Clarion designs and manufactures leading automotive audio and video products, and related accessories, for the after-market and for original equipment manufacturers.

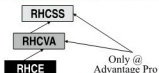

Looking for a Linux job? Head to the US

Findings show that an overwhelming majority of Linux jobs are available in the United States, based on data sourced from the *Linux.com* Jobs Board from September 1 to November 30, 2011. The US had 70 per cent of the Linux jobs, with Australia coming a distant second with 14 per cent. Java
