

LEARN, BUILD, IMPRESS!

Go beyond theory and become a pro at robotics!
Here are a few robotics kits that you should try
your hands on.

Rest assured, you're bound to impress everyone!

AGRICULTURE ROBOT

Our Agriculture robot is designed around 8051 microcontroller that helps machine to maneuver and operate autonomously to demonstrate the process of sowing seeds in farm.

MRP ₹ 6000

AUTOMATIC ROOM LIGHT CONTROL

A unique blend of software & hardware. The system takes in input from a webcam mounted inside a corner of room, it will wait till no activity in the room. Once any motion is detected, the software analyzes for its correctness & instructs lights or fan to get switched ON.

MRP ₹ 3500

MATLAB BASED SURVEILLANCE ROBOT

This machine is a unique blend of software and hardware. It's a mobile platform that a user can control through his or her computer with a proper feedback through wired webcam.

MRP ₹ 5500

MOBILE MULTIFUNCTIONAL ROBOT

As engineering systems become more complex, robotics education is key in training the modern engineering workforce for the future. This multidisciplinary field provides hands-on design opportunities for future mechanical engineers.

MRP ₹ 32000
